310 W. Foothill Blvd.,

Arcadia, California

## #28 C. PASADENA X C. HARDYANA

We expect flowers of excellent texture and size with deep lavender sepals and petals and very dark ruffled lip. Spring-summer.

2"	\$ 2.50
2½"	\$ 3.50
3"	\$ 6.00

## #30 LC. MEM. HELENE AMMENHEUSER X C. ZABELLE

Crossing these two hybrids may result in some novelties. Lc. Mem. Helene Ammenheuser is a lovely lavender cattleya with wide ruffled petals and large dark lip. C. Zabelle is a free flowering plant producing small dark satiny flowers which bloom in clusters.

2"	\$ 2.00
2½"	\$ 3.00

## #31 C. GREGORIO X LC. GRANDEE

Both parents used here were of very good quality. C. Gregorio is a large soft yellow with crimson-purple lip, gold veining and is very fragrant. Lc. Grandee is a very heavy textured yellow with crimson lip. Expect a fine yellow to bloom in the spring.

2"	\$ 3.00
2½"	\$ 4.50

## #33 LC. MEM. HELENE AMMENHEUSER X C. TITYUS

Two very fine parents were used in this cross. Expect large dark flowers with frilled lip to flower in the winter.

2"	\$ 2.50
2½"	\$ 3.50

## #34 (LC. BRITANIA X C. MOSSIAE var. COUNTESS GREY) X C. TITYUS

This hybrid should prove to be an excellent commercial type. Dark colors with rich yellow in throat. Season early spring.

2"	\$ 2.00
2½"	\$ 3.00

## #35 (C. TRIANAE X C. ALTADENA) X C. TITYUS

The combination of these two winter blooming cattleyas should result in fine dark flowers with some yellow in the throat.

2"	\$ 2.00
2½"	\$ 3.00

## #36 BRASSAVOLA GLAUCA X LC. DELPHINENID

Expect novelties. B. Glauca is a small heavy textured white specie. Lc. Delphinid is a large well formed dark cattleya.

2"	\$ 2.00
2½"	\$ 3.00

#41	C.MOSSIAE WAGNERI White free flowering cattleya blooming during June whites are in great demand	2"	\$ 2.50
		2½"	\$ 3.50
		3"	\$ 7.50
